ERITORS' CONFERENCE YIELDS BIG RESULTS.

York City .- Adv.

President's Strong Stand Against Lynching-Opportunity for Colored Nurses in Army and Probably Early Recall of Col. Young to Active Duty, Follow Urgent Appeal of Race's Spokesmen for Justice.

Washington, D. C., July 29: Already there are numerous evidences that the recent conference of Colored Editors and leaders held in this city in June, which was called by Emmett J. Scott. Special Assistant to the Secretary of War, at the suggestion of the War Department and the Committee on Public Information, to consider the relations of the 12,000,000 Negroes in this country with the general government itself, and to discuss ways and means how each might co-operate most effectively in the work of winning the present world-wide war, is bearing fruit. Three results of the most significant character have been worked out within the past fortnight that fully justithe holding of the conference and other issues not les far-reaching are well on their way toward a satisfactory conclusion.

PRESIDENT WILSON'S CLEAN-CUT PRONOUNCEMENT AGAGINST LYNCHING.

The first in importance and human interest of the helpful results that may be said to have grown directly out of the recent conference of editors, ers and friends of the Negro people. is that frank, positive and unequivocal delaration of the President of the United States against the mob spirit, which has been sent to the four corners of the earth by cable and through the newsppaers of this country, President Wilson's firm stand for law and order ranks with the finest of the great state papers that have emanated from the White House, and it has I've saver for this many years, and electrified the entire country as it has seldom been thrilled before.

It will be remembered by those familiar with the proceedings of the conference at the New Interior Department Building that the full force We tore up all her country, and blew of the leaders who spoke was marshal-up all her towns. ing and inhuman mob violence practiced mainly against colored people

He said to me, "Dear William, don't wan to make yo usore, So, be sure to tell your U Boats to sink our ships no more. We have told you for the last time, "So Bill" its up to you, And if you do not stop it, you have got to fight us too.

not much for me to tell. For the "Negro Soldiers" will make it hotter on earth than I can in hell I've been a mean old Devil, but not half as mean as you, And the minute I get you here I will give my job to you. I'll be ready for your coming, I'll keep the fires all bright,

and that this lack of respect for the common rights of citizens was given as the most potent cause for the unrest among Negroes. This was the underlying reason for bringing the conference together from far distant points. The proceedings of the Conference reached the President through the Committee on Public Information of which Mr. George Creel is Chair-

The President's message is a wholesome rebuke to ruthless violators of the law, who almost invariably think they will be immune from punishment by the courts or by an outraged public opinion.

The colored people are jubilant over the timely and straightforward pronouncement of the President of the United States and that such an utterance from the highest authority in the land will cause a wave of pat riotic enthusiasm among them and inspire a keener impulse to assist in the many constructive war activities throughout the Republic can not be doubted.
